

Marshall Space Flight Center Exhibit Data Sheet

Hubble Space Telescope

The 1:25 scale Hubble Space Telescope (HST) is an accurate representation of the great observatory which was launched April 25, 1990, by the Space Shuttle Discovery. Orbiting the Earth at an altitude of 370 miles, the HST is providing information to scientists on a daily basis, changing the way we view and understand the universe.

The 1:25 scale Hubble Space Telescope is suitable only for indoor display.

Scale: 1:25

Dimensions:

16" high x 10" wide x 20" long

Electrical Requirements:

None

Value for Insurance:

\$2,550.00

Crate Specifications:

13.5" x 9.5" x 30" @ 20 lbs.

Assembly Equipment Required:

None

Labor Required:

One person

Assembly Time:

Approximately 10 minutes
